to Suffer.

Carson, Nev., Dec. 7 .- One of the most herrible lynchings ever known in Nevada occurred at Genoa, fourteen miles from o'clock this morning. Uber, who last week shot and killed Hans Anderson in a Millerville saloon, hanged by a mob of masked men to a ecttonwood tree half a mile distant from the fail. When taken from his cell th victim had nothing on but a shirt. This was torn off by the lynchers and the nude body left dangling in the air for six hours. As the hody was being pulled up, the moliddled it with bullets. When satisfied that the man was dead, the vigilantes dispersed

At the hour above mentioned the leader of the mob presented himself at a side window of the county jail and, calling to ville constable had arrived with a prisoner he wished to have locked up. The sheriff was some time in responding and the mob. impatient at the delay, battered down the door of the recorder's office with sledge nammers, captured the sheriff and constable and placed them under guard.

The prisoner was then awakened. He fought with a chair, but was soon over powered. He cried for mercy, but was silenced with a gag and, after being bound, was dragged through the streets, out of the city, and to a place half a mile dis tant, where the crowd halted. The sheriff and constable were forced to accompany the mob, and, still under a strong guard. watched the execution.

The prisoner was in a fair way of receiving trial and punishment for the crime he committed. The preliminary examination was held last week, and the grand jury had found an indictment. A number of witnesses would have been brought forward to prove that Uber had been as ilted by Anderson before the shooting. Uber has a millionaire uncle, Henry Robson, in Pittsburg, Pa., and it is thought that the perpetrators of last night's affair may be brought to justice.

SEE NO OTHER CHANCE TO WIN.

IN CASE OF AN EXTRA SESSION RE-SUBMISSION WILL BE PUSHED.

Leedy Crowd Will Fight for a Resub mission Plank in the Next State Platform - Laying Wires for It Now-Kansas News.

Topeka, Kas., Dec. 7 .- (Special.) The resubmission movement shows signs of being revived in Kansas. Within the past month the Populist statesmen have said more about that question than about any other. They have quit talking maximum rates. They seem to have switched over completely to the liquor question. In case of a special session of the legislature a hard fight will be made to push a resub mission resolution through. The Pops be-Heve that enough votes can be secured from all parties now to pass it.

Whenever a Pop representative is found who favors an extra session he usually says he favors it because he believes a resubmission resolution can be pushed through. He doesn't mention the possibility of the passage of a maximum freight rate law or any other law which the Pops promised in their state platform to pass It is resubmission and nothing else.

The Pops know they cannot make anoth er campaign on old vagaries; the old ones have all been worked to death. Resubmission is the issue on which they will probably endeavor to ride to victory next year Should there be no extra session, it is the belief of well posted politicians that the Pops will incorporate a resubmission plank in their next state platform and make it the main issue in the campaign. This will be done if the Leedy administration con trols the convention, and there is nothing on the political horizon now to indicate that it will not.

The administration is shaping its policy so that it will be an easy step. In the first place, under direct instructions from the governor, the police boards in the large towns are letting the joints run wide open. In the smaller towns, which are not unde metropolitan police rule, but which have joints, the attorney general refuses to appoint assistants to aid in the enforcement of the prohibitory law. The fact is the people cannot depend on the state adminstration to render them any assistance whatever in driving out the joints. The vote, and in due time, it is said by one force resubmission on their party.

SUPREME COURT PROTESTS. Judges Think They Were Unlawfully Imposed Upon by the Last Legislature.

Topeka, Kas., Dec. 7.—(Special.) The justices of the state supreme court are not very thankful to the last legislature for imposing upon them the duty of examining the new revised statutes before publication. On the other hand, they gently intimate in a public announcement made in the statutes which were sent out to-ay, that is was a piece of impertinence on the part of the legislature. The law passed at the last session of the legislature giving Judg W. C. Webb the contract to compile and print the revised general statutes contained a provision compelling the supreme court judges and the attorney general to to pay for the work unless those officials certified that the new statutes were cor-rect. In the front of the first volume, the certificates of the justices and attorney gen eral are published. The justices say: "The justices of the supreme court, having made uch examination of the general statutes of 1897 as has been practicable in the limit ed time we have been able to devote to it without neglecting our judicial duties (al though we deem this a task which the legislature cannot lawfully impose upon us) certify that, so far as we are able termine, the compliation complies with the law authorizing it."

Attorney General Boyle did not see fit to criticise the legislature for imposing the duty on him, and, with this exception, his certificate is the same as that of the su

Kepley's attorneys claim that, no matter whether liquor was used by him or not, that charge can't deprive him of winning the contest if the books show he got the most votes, in case it was shown that he was elected. then the charge of using liquor might be brought up to oust him from holding the office. The attorneys for Mr. Cook, how ever, will insist on keeping the liquor question in the case. They have some very rac evidence along that line, and were not surprised at Kepley's attorneys making a move for the purpose of preventing the

Commissioner Moses P. Handy Recommends That Congress Approprinte \$919,800.

Washington, Dec. 7.-The president today submitted to congress the report of Major Moses P. Handy, of Chicago, spe-cial commissioner to the Paris international exposition. The commissioner recommends that an appropriation of \$919,600 be granted, so that a creditable display on behalf of the United States be made. The president, in transmitting the report, says "Besides securing a much larger ame of space than had been reserved. Major Handy obtained the gratifying assuran that the United States would be placed on footing with the most favored nations, and at the installation of every important department, the United States will have a location commensurate with the dignity and importance of the country, and adjoining, in every case, countries of the first rank. In view of the magnitude and importance of the approaching exposition, and of our standing among nations, that will there be represented, and in view, also, of our increased population and acknowleded progress in arts, sciences and manufactures, I earnestly commend the report of Major Handy to your consideration, and trust that a liberal appropriation may be made. Moreover, the magnificent exhibit of the French republic, at Chicago, in 1893, on which \$1,000,000 was expended, should be a strong incentive to reciprocal liberality on the part of the government of the United States."

The widows and orphans of members are entitled to it, but, as I have said, the churches have given it up, and the secret societies have taken it up, as shown by their wonderful popularity and success. The expense is large, but the charity is dispensed. The secret societies are fast crowding out the churches. I conclude, as I commenced, by saying that the world is burdened with religion, but is in need of Christians."

The men to whom relief is to be sent left Chicago early in September. Their intention was to go to the Yukon country by the water route, by way of Edmonton. Meriwether says the great boat which the party had built at Athabasca landing struck a rock, which stove a hole in its bottom after less than 2% miles of the journey down the Athabasca river from the landing had been completed. "Water rushed in," says Mr. Meriwether, "and spoiled a part of the provisions. It is my belief they have provisions enough to last them until help can reach them, if they can withstand weather conditions."

License Tax Decision. Division No. 2 of the supreme court today in an opinion by Judge Gantt made an important ruling in regard to occupation taxes levied by cities of this state against its citizens. This court holds that, to be legal the tax must be a specific amount on each occupation without regard to the as-sessed valuation of the property.

Henry Tooey, a Brooffield merchant, was fined \$19 by the police court of that city for violating an ordinance of the city levying a license tax of 1 per cent on his stock of goods in addition to his regular city tax of 50 cents per \$100 assessed valuation.
